Butter and Eggs

constitutes one of our specialties. We're very proud of our butter reputation. Our eggs are as fresh as though just brought in from your own henhouse. We get them daily from nearby poultry farms. Every egg is warranted. Dairy butter is made solely for our trade. We know just how this butter is made; we know the makers well. We have dropped in on them unexpectedly and examined their methods at a time when they could make no preparations to receive us. We always find everything spick and span; they use the richest of sweet cream; result, the butter is perfect. And it's always the same. In 5 and 10 pound jars. This week it's selling at 20c a pound. Eggs are 15c a dozen.

Fresh Fruits and Vegetables this week

CZAR IS HEARD FROM

WASHINGTON INFORMED OF AUDIENCE HE HELD WITH AMERICAN AMBASSADOR.

NOT UNFAVORABLE TO PEACE

ATTITUDE OF THE RUSSIAN AUTOCRAT STRENGTHENS HOPE OF A SETTLEMENT.

Washington, June 9.—The czar has at last been heard from here and the result is not unfavorable to peace. In his recent audience with Mr. Meyer, the American ambassador, the czar indicated a willingness to take under advisement the subject of peace and expressed a warm appreciation of the friendly words of Mr. Meyer, speaking as the personal envoy of the president. The reception of Mr. Meyer was characterized by the greatest cordiality and friendliness and the ambassador's cablegram to the president giving a general account of the audience is of a distinctly hopeful tone. Mr. Meyer did not bring to the St. Petersburg government an offer of mediation but a "friendly offer of good will," as it was described by Count Cassini, which apparently was gratifying to the czar. Further than this it is impossible to record the character of the cablegram.

Mr. Takahira, the Japanese minister, called by appointment at the White House in the afternoon and spent half an hour with the president. He was still unable to give the president the slightest indication regarding Japan's peace terms, but it is believed he was acquainted in a general way with the hopeful tone of Mr. Meyer's dispatch and with this as a lever the hope is expressed here that the mikado will meet the president half way in the earnest efforts he is making to assist in bringing about an early peace.

Kaneko and Roosevelt Confer.

Earlier in the afternoon Baron Kaneko, the Japanese financial adviser, was received by the president and discussed the whole situation for some time. Baron Kaneko at night said that Japan had not received directly or indirectly any request from Russia for a statement of peace terms. It was intimated that Japan would be loath to give any such statement until convinced that Russia was prepared to take up the question of peace with the intention of ending the war. Later in the afternoon Sir Mortimer Durand, the British ambassador, saw the president, and at night Baron Speck von Sternberg, the German ambassador, was at the White House for nearly an hour. None of the callers would discuss their visits and it can be stated that with the exception of the call of Mr. Takahira none of these visits was of great importance.

It is not expected that the situation will change radically in the next day or two. Until some indication comes from Japan of her attitude in the light of the spirit shown by the czar the negotiations can hardly be expected to progress. Meantime powerful, though friendly, influence is being brought to bear on Japan to be moderate in her demands. It has been pointed out that Japan and Russia must always be close neighbors and that if Japan is unreasonable now in her great triumph she might again be involved in war with Russia. What effect these representations may have on the mikado is of course only conjectural.

Hopes Not Yet Realized.

Strong hopes were entertained here in the highest circles that London could be relied on for active assistance in counselling moderation to Japan. These hopes have not yet been realized, although information has been received that Great Britain will welcome peace. It is still hoped, however, that some assistance from that quarter may yet be forthcoming. Berlin and Paris are both giving loyal assistance to the efforts initiated in Washington and the result of Berlin's activity is already being felt.

Further instructions have been sent Ambassador Meyer at St. Petersburg, but their character is not known.

Count Cassini, the Russian ambassador, called at the French embassy during the day, where he had a long talk on the situation with Ambassador Jusserand. The Russian ambassador has not yet made an appointment with the president and it is impossible to obtain any information regarding the cablegrams that have reached the embassy from St. Petersburg in the past twenty-four hours.

LACKS PHRASES OF RESPECT.

Address of Moscow Congress to the Czar May Become Historic.

St. Petersburg, June 9.—The voice of the delegates of the zemstvos and of the municipalities demanding in no

uncertain tone the immediate convocation of a national assembly to pass upon the question of peace or war, to heal internal strife and to unite the people for the rejuvenation of Russia, will be heard in the address adopted by the All-Russian zemstvo congress at Moscow, which a deputation, headed by Count Hayden and M. Shipoff, is bringing to present to the emperor. The document bids fair to become historic. The customary phrases of respect at the opening and the closing are omitted and it is otherwise unceremonious.

The address arraigns the bureaucracy and reminds the emperor that his pledge to convocate a national assembly is slow of fulfillment. It says the country is on the verge of a civil war and even ventures to criticize a royal measure.

The address urges the summoning of a national assembly that the war may become national or cease.

ORDERS CARRIED OUT.

Russian Ships at Manila Finally Interned.

Washington, June 9.—Governor Wright has cabled Secretary Taft officially notifying him that the orders of the president regarding the Russian ships in Manila bay have been carried out.

ON THE EIGHT-HOUR LAW.

Attorney General Moody Renders an Opinion.

Washington, June 9.—The opinion of Attorney General Moody regarding the application of the eight-hour law on the Isthmus of Panama was made public during the day. He holds that the act of Aug. 1, 1892, which limits and restricts to eight hours the daily service of laborers and mechanics employed by the government of the United States or by any contractor or subcontractor upon the public works of the United States, applies to the employment of laborers and mechanics in the construction of the Panama canal.

The act, however, the attorney holds, does not apply to the office force of the Isthmus of Panama, or to any of the employees of the government who are not within the ordinary meaning of the words "laborers and mechanics." Also that the scope of the act is not limited by the territorial jurisdiction of congress, but is co-extensive with the subject matter to which it was directed, to-wit, the conduct of officers and agents of the United States in respect to the hours of labor of mechanics and laborers upon public works of the United States. Congress, he says, may fix the hours of labor upon all the works of the United States, wherever conducted, and make the law binding upon the officers of the United States, and through the agency of contracts, upon all contracts with the United States.

SPEECH CAUSES A FIGHT.

Pennsylvanians Object to Utterances of Editor J. A. Benn.

Guthrie, Okla., June 9.—The action of James A. Benn, city editor of the Philadelphia North American, in attacking Governor Pennypacker and the late Senator Quay in an address before the National Editorial association here during the day has caused a fight in the Pennsylvania delegation which may be carried before the association. His action took Quay's friends in the convention completely by surprise. F. B. McKee, T. H. Harter and F. S. Phelps assert that they will present a resolution condemning Mr. Benn's course.

Mr. Benn, in his address on "Muzzles in Pennsylvania," reviewed the organization of the co-called Quay "machine," and the events leading up to the passage of the Pennypacker libel law. He blamed Mr. Quay for this severe law, declaring that it was Quay's governor that instigated it. President Crews delivered his annual address in the morning. J. W. Carr of Anderson, Ind., spoke on "The Public School and the Press."

BRITISH SUBMARINE LOST.

Fourteen of Crew Go Down With the Vessel.

Plymouth, Eng., June 9.—Submarine "A 8" was lost off the breakwater here during the morning. Three explosions are said to have occurred on board before she foundered. She had on board eighteen officers and men, including her regular crew and men who were in training. Fourteen of the number were drowned. The others were picked up.

Iowa Bankers Elect Officers.

Des Moines, Ia., June 9.—The following officers were elected by the Iowa State Bankers' association, which closed its convention in Des Moines during the day: President, D. H. McKee, Mediapolis; vice president, John C. Large, Greenville; treasurer, Senator J. T. Brooks, Hedrick; secretary, J. M. Dinwiddie, Cedar Rapids.

To Pay the Tribal Tax.

Muskogee, I. T., June 9.—Indian Inspector Wright has given the business men of the Creek Nation until Friday evening to pay the tribal tax, and it is believed that all will comply under protest.

SWEDES NOT EXCITED

EXHIBIT A CALMNESS AMOUNTING TO INDIFFERENCE IN REGARD TO CRISIS.

NO TALK OF WAR IS HEARD

UNIVERSAL VIEW IS THAT NORWAY AND HER PEOPLE WILL BE ONLY SUFFERERS.

Stockholm, June 9.—According to the latest news from all parts of the country the Norwegian coup d'etat has been received with calmness bordering on indifference. Beyond demonstrations of loyalty to the throne there is no sign here that anything unusual has happened. All kinds of business is continued as usual and there is not a single worker less in the workshops. The crisis is hardly discussed among the working classes, and where the subject is discussed at all there is no work spoken of an appeal to arms.

The universal view is that Norway and the Norwegians will be the only sufferers. King Oscar's attitude meets with complete approval, and although hopes are expressed that the powers will delay recognizing the new kingdom, and although the interval before parliament meets here may give an opportunity for some compromise to be arranged, it is generally believed that the separation will be peacefully consummated. Then the only points of interest will be as to what form of government Norway will adopt and as to the question of defense against Russia for which an offensive and defensive alliance between Norway and Sweden is considered essential. It is understood negotiations between the two countries will be instituted as soon as possible, especially on common economic questions.

The Policy of Norway.

Some politicians appear to be apprehensive that Norway will pursue a foreign policy involving insecurity for Sweden and the necessity of great expenditure for the fortification of the western frontier.

The national anthem is called for at all places of amusement. Addresses and telegrams of sympathy with the king from all parts of Sweden are constantly arriving at the palace. Inhabitants of Stockholm to the number of several thousand assembled in front of Rosendal castle in the evening and made a demonstration of their loyalty to and affection for King Oscar.

His majesty, accompanied by Queen Sophia, Crown Prince Gustav and other members of the royal family appeared on a balcony of the castle and was greeted by the national anthem, which was sung by the enormous crowd, accompanied by brass bands. The king listened to a short address to which he replied in a voice loud and clear, but shaken by emotion. His majesty assured his subjects of his deep gratitude for their demonstrations of love and in conclusion said: "Long live our ancient, glorious and loyal country, so good and so dear. Long live Sweden."

Thunderous cheers for "Our beloved grandson, Prince Gustavus Adolphus," (who is to marry Princess Margaret of Connaught) were heartily given. The national anthem was repeated and a procession followed which lasted for hours, the crowds loudly acclaiming King Oscar.

ARMY GETS ORDERS

EXPECTED TO RENDER ALLEGIANCE TO THE NEW GOVERNMENT OF NORWAY.

Christiania, Norway, June 9.—The council of state, following the action of the storting in dissolving the union of Norway and Sweden, proclaiming that King Oscar is no longer king of Norway and placing the reins of government in the hands of the council of state, is proceeding with the reorganization of the government in the manner indicated in the programme which had been more or less prepared before the final step was taken by which Wednesday's peaceful revolution was accomplished.

The department of national defense has issued a decree to the army acquainting it with the resolution of the storting and the assumption of the government by the council of state and intimating that the army must comply with the new conditions, rendering allegiance to those now conducting the government.

Minister of State Loevald has been appointed foreign minister and the council of state has decided to divorce the foreign office from the departments of commerce, navigation, etc., with which heretofore it has been amalgamated.

The council also resolved to eliminate the emblems of the union from the flag of Norway.

All Norwegians Resign.

KRECH DENIES THE REPORT.

Brands as False the Story Regarding Equitable Funds.

New York, June 9.—The nominating committee appointed by the directors of the Equitable Life Assurance society to name a chairman of the board who shall direct the affairs of the society, met during the day but adjourned over night without definite action, it was learned, other than dismissing the name of Judge George Gray of Delaware in connection with the chairmanship.

Among the developments of the day were the announced resignation of Robert T. Lincoln from the board of directors; the cancellation of a \$50,000 policy by Melville E. Ingalls; and a statement by Alvin W. Krech that there was absolutely no truth in the published report that the inquiry of the state insurance department would show a new improperly involving \$10,000,000.

Hangs Himself on Wedding Day.

Glencoe, Minn., June 9.—John Dammann, a farmer, who was to have been married during the day, committed suicide by hanging, his body being found in the barn. He was engaged to Dora Walters, a neighbor's daughter, whom he had known from childhood.

A TALE OF TWO SCOUTS.

Narrow Escape From a Rattler and a Band of Indians.

In Cyrus Townsend Brady's "Indian Fights and Fighters" is a tale of two scouts, Trudeau and Stillwell, who carried to General Carpenter through an Indian infested country the news that Major Forsyth was being besieged in the sands of Beecher's island by a thousand warriors. Here is one incident of their journey:

"During this day a large party of scouting Indians halted within 100 feet of the wallow where the scouts were hiding. Simultaneously with their arrival a rattlesnake made its appearance in front of the two scouts, who were hugging the earth and expecting every minute to be discovered.

"In his way the rattlesnake was as deadly as the Indian. The scouts could have killed him easily had it not been for the proximity of the Cheyennes. To make the slightest movement would call attention to their hiding place. Indeed, the sinister rattle of the venomous snake before he struck would probably attract the notice of the alert Indians. Between the savage reptile and the savage men the scouts were in a frightful predicament, which young Stillwell, a lad of amazing resources, instantly and effectually solved.

"He was chewing tobacco at the time, and as the snake drew near him and made ready to strike Stillwell completely routed him by spitting tobacco juice in his mouth and eyes and all over his head. The rattlesnake fled. He could not stand such a dose. The Indians presently moved on, having noticed nothing, and so ended perhaps the most terrible half hour the two men had ever experienced."

Nervous Headache

The Cause of Much Suffering to Women is Permanently Cured When the System is Built up by

DR. A. W. CHASE'S NERVE PILLS

When the head aches hard and throbs; when the neck and eyes grow stiff, the face flushes or grows deadly white; when any excitement or over effort brings on an attack of nervous headache so severe that it leaves you weak, trembly, shaky and utterly worthless for days, it is a certain indication that the nervous system is shattered—that resistive power is gone—that you need a medicine that will rebuild and re-supply the lost nerve force, that will so strengthen you that you can resist and overcome these terrible seizures. Such a medicine is Dr. A. W. Chase's Nerve Pills, a medicine that does not relieve but goes to the root of the trouble and positively cures.

Mrs. John Fall of Fourth St., Toronto, O., Says:

"I like Dr. A. W. Chase's Nerve Pills because they cured my nervous sick headaches—these headaches used to play me out and leave me weak and nervous, the pain being so severe. My eyes used to get stiff and sore during the attack and the neck so stiff I could hardly turn it. The Nerve Pills, however, proved to be just what I needed and cured the attacks in a hurry. As a result I feel steady in nerves, physically strong and vigorous and in every way sound and well. This makes me feel I can't speak too highly of the medicine." 50 cents a box at dealers, or Dr. A. Score: Grand Forks, 10; St. Brains, 6. At the beginning of the fatal eighth the home club had the game cinched 6 to 2, but Harris, a new third baseman, went wrong, making three errors. MODERN FOOTBALL.

It Comes From the Florentines, Who Got It From Greece.

Did modern football, the Rugby game, travel to England from the Italy of the renaissance and does its history reach back to ancient Greece? A recent writer says: "Probably not more than a few votaries of Rugby football are aware that we have to thank Florentine athletes for the invention of the game and for its introduction into Great Britain. Rugby school was founded somewhere about 1567. It was one of the direct results of what has been called the Florentine or Tuscan fever in England, which set in late in the Italian renaissance. Not only did men of letters come over and settle in England's centers of learning and create others, but many Florentines versed in the theory and practice of polite culture came as well. The game of il calcio came to Florence by way of Greece. Something of the sort had figured among the less important games at Olympia. The principal Florentine ground was the Piazza di Santa Croce, where upon the wall of the Palazzo Giulio Parrigi is still to be seen the disk from which the line dividing the ground was drawn across the open square. The ball was of leather, containing an inflated bladder, and apparently was the exact size, weight and shape of the Rugby ball of today.

"Il calcio consisted of a friendly contest between two equal sides of players called schiera azzura and schiera rossa—blues and reds. The number of players varied according to the size of the ground or the importance of the encounter. In the Piazza di Santa Croce the sides were twenty to twenty-seven strong, while on the public open sports ground at Peretola they totaled as many as sixty each. Originally the players were required to be of noble or gentle blood or such as had gained distinction and rank in the profession of arms. Each man had to be of unblemished reputation and of graceful figure and possessed of accomplished manners.

"In addition to the actual players were presidents, standard bearers, judges, an umpire, pages and other officials, all 'without reproach, worthy of the city and courteous in manner.' The costumes of the players were tight fitting drawers and tunics of silk, with feathered caps, all richly embroidered in gold and silver. Leather shoes were worn. The teams were divided into four classes: Forwards, whose places were near the dividing line and whose work was to keep the ball in play; halfbacks, stationed behind the forwards, in order to return the ball to play; three-quarter backs, who were strong kickers and played straight on the ball, and goal keepers, placed at the flags, or boundary, to stop the ball passing."

Two Suspects Arrested.

Two men suspected of being the parties who robbed the Crow Wing store and postoffice on Wednesday have been arrested and held at Little Falls until the matter can be investigated. The Transcript says:

"Two men closely answering the description of the men wanted for the Crow Wing robbery were seen in the woods northeast of this city Wednesday afternoon and were later seen going to the west side. Deputy Sheriff Ferrell was notified and searched the west side railroad yards and the hobo hangout known as the 'jungle' and found the men, who answer closely to the description. He took them into custody and notified Mr. Guin at Crow Wing that they were being held. The suspects were searched when arrested, but no weapons or valuables were found on them. This, however, does not bear on the case, as it is very possible that if they are the guilty parties they were wise enough to hide the 'swag' until they could leave the city. If Mr. Guin identifies the men, a search will be made for the money, which is probably concealed in the 'jungle' where they were found. The men held admit that they were in Crow Wing Tuesday afternoon and that they purchased some crackers of Mr. Guin, but deny that they were in any way connected with the robbery."

ONE MAN HELD IN JAIL HERE

But E. L. Guin Did not Identify Him as Being the Man Wanted

IN THE POSTOFFICE ROBBERY

Sheriff Irwin, of Wadena. Came Down This Morning to Look the Fellow Over

Sheriff Erickson has a man in custody who was thought to have had some connection with the Crow Wing postoffice robbery. The man gives his name as John O'Donnell and he is thought to be a rather bad character. E. L. Guinn, the postmaster who was held up, saw the man yesterday afternoon and stated that he had nothing to do with the hold up. He is positive that he can identify the men when he sees them.

Two men were held at Little Falls, thought to be implicated, and they were seen yesterday afternoon by Mr. Guin but they are not the men.

Sheriff Irwin came down from Wadena this morning to see the man held here, thinking perhaps that he might have been implicated in the Menanahga robbery. The sheriff left this noon, however, stating that O'Donnell does not answer the description.

J. B. Gann, the bridegroom, is a well known Minneapolis business man of good family and is the publisher of "Both Sides," a Minneapolis trade organ, and the bride is a well known and highly respected young lady who has a host of friends in this city. The young couple left on the afternoon train for Minneapolis, where they will reside. The Transcript joins with their many friends in wishing them happiness and prosperity.

NO TROUBLE HERE

The Report That Machinists Had Walked Out at Shops Is Entirely Without Foundation

There was a report on the streets about noon that the machinists at the N. P. shops in this city had walked out, but there is no foundation for such a rumor as word from the shops this afternoon was to the effect that everything was running smoothly.

The general committee of the machinists employed in the shops of the Northern Pacific railroad, which has been in session in St. Paul for three weeks, adjourned on Monday night and the members departed for their homes. The committee has had several conferences with General Manager H. J. Horn over the wage scale for next year. These conferences seem to have been anything but satisfactory to the machinists.

The difficulty between the machinists and the management of the railroad is the schedule. Although the Northern Pacific a year ago gave in to the demands of the machinists for a nine-hour day, and although the machinists are today theoretically working on a nine-hour schedule, members of the committee say that actually they are compelled to work on an average of ten hours, because of the refusal of the company to pay overtime for the tenth hour.

A UNIQUE RECORD.

Not Another Like It In Our Broad Republic.

To give positive home testimony in every locality is of itself unanswerable proof of merit; but when we add to this the continued endorsement from people who testified years ago no evidence can be stronger. A Brainerd citizen gratefully acknowledges the good received from Doan's Kidney Pills, and when time has tested the cure we find the same hearty endorsement, with added enthusiasm and continued praise. Cases of this kind are plentiful in the work of Doan's Kidney Pills, and such a record is unique in the annals of medicine.

R. D. Ranson, engineer, of 201 11th St., N. Brainerd, Minn., says: "What I said in recommending Doan's Kidney Pills in our local papers some six years ago was not only true, but I can state today that after further experience with this remedy, it is the best preparation of the kind that I ever tried. Before I got my first box at H. P. Dunn & Co.'s drug store I had suffered for a good many years with kidney troubles. I had a great deal of pain in the back and loins and there was annoying irregularity in the action of the kidneys. Night brought me only restless sleep as I could not lie in one position without getting sore and lame. When stooping or lifting I suffered intense pain. I tried to straighten suddenly. Doan's Kidney Pills entirely cured me at that time, and when I suffered a similar attack some years later, I again used Doan's Kidney Pills with the same satisfactory results."

WAS FOUND DEAD BY HIS PARTNER

George Burr, Well Known Lumberman, Died in a Sleeping Shanty North of Here

HAD BEEN DRINKING HEAVILY

Body Said to Be Lying in the Shanty Waiting for Further Disposition.

The lifeless body of George Burr, a well known lumberman, was found in a sleeping shanty in the Thunder Lake country early Tuesday morning by his partner, William Tift. The two had gone up country a few days before and struck this shanty near the Herbert Graves place Monday night. They went to bed and in the morning Tift got up and went out for a short time. When he returned he raised the mosquito netting which covered the bed and to his surprise found that Burr had died some time during the night.

Burr's family lives in the southern part of the state and a telegram was sent to them informing them of his death, but no word was heard from them. The body, according to reports here, is still lying in the shanty awaiting instructions from relatives.

Burr had been working for various lumbermen during the winter and spring and was going north to work for the balance of the summer. It is said that he had been drinking rather heavily for several days and it is thought that this had something to do with his untimely ending.

EMILY ITEMS.

Hints for Summer and the Grumbler.

You ought to be happy these bright summer days.

And remember your sighs for warm weather. You mustn't fret if the skeeters they bite, For the frost bites, you know are more dreadful.

I'm sure you enjoy the rush of the water, Much more than the creak of the ice. But people forget they can't have warm weather Without having plenty of flies.

Of course you enjoyed your sleighride in winter,

With a frost bitten nose and a toe, But I'm sure you enjoy these buggy rides better.

For your nose has peeled off long ago.

I hope you'll remember these hints, my dear friend,

And take them for better or worse, And when the skeeters bite, don't grumble and say

That the writer's a crank, I can prove it.

THE CHICAGO STRIKE
ITS FURTHER PROGRESS AND EXTENSION DEPENDS UPON THE TEAMOWNERS.
DISSENTION IN THEIR RANKS
SOME OF THEM FAVOR STRIKERS AND OTHERS SUPPORT THE EMPLOYERS.

Chicago, June 9.—The teamsters' strike has reached the point where its further progress and its further increase is dependent upon the action taken by the members of the Chicago Teamowners' association. This organization has from the first declined to make deliveries to the boycotted houses and has constantly urged the teamsters to arbitrate the question of making such deliveries. The teamsters have positively refused to deliver or receive goods and now the last chance of securing any concessions from the teamsters having faded away the members of the Teamowners' association must either decide to deliver goods or allow the teamsters to have their own way in the matter. Opinion among the members of the Teamowners' association is strongly divided and the result may be a split in the ranks. Several of the largest teamowners in the city have announced that they are going to make deliveries, while other members of the association are undecided as to their course of action. A meeting of the organization will be held Friday night and the action taken at that time will largely determine the future scope of the strike. If the Teamowners' association decides to make deliveries and discharge all of its men who refuse to obey orders, the ranks of the strikers will be increased by about 8,000 men. The strikers made another attempt during the day to force a break in the ranks of the employers' association. A committee called upon Edward Hillman, proprietor of a large dry goods store, and asked him to arrange another conference between the teamsters and the employers. Mr. Hillman positively refused, saying that unless the strikers had some new proposition to offer it was useless to attempt to reach any agreement. Their present attitude, he said, was such that there could be no possible middle ground upon which the employers could meet them.

This was the only attempt at adjusting the strike made during the day and it is not probable that more efforts will be made for some time to come.

THE WORST IS NOW OVER.

Flood Situation in Michigan Steadily Improving.

Grand Rapids, Mich., June 9.—Reports from the flooded basin of the Grand river north of this city indicate that the worst is over. The river is beginning to fall rapidly. All the rivers flowing into the Grand, including the Maple, Flat, Thornapple and Rouge, are subsiding. Director Schneider of the weather bureau says the crest of the flood will be 18 feet and will be reached by midnight. The West Side dike still holds and indications are that the section flooded last year will escape inundation.

In the afternoon the southwest portion of the city was inundated and a lake two miles long and a mile wide was formed. Whole blocks of houses were flooded and many manufacturing plants were forced to shut down. Hundreds of acres of farm lands are under water from two to five feet.

Farmers have suffered heavily from Holland as far north as Traverse City. Crops are devastated over almost this entire section. There may be an aggregate damage to farm property alone of \$1,000,000.

THE SITUATION IN RAILROAD LINES IS STEADILY IMPROVING.

MAHAN FOUND GUILTY.

St. Paul Negro Convicted of Second Degree Murder.

St. Paul, June 9.—George Mahan, colored, on trial for the killing of his wife, has been found guilty of murder in the second degree and sentenced to life imprisonment. The jury retired shortly after 5 p. m. and reached a verdict at 8 in the evening. Mahan shot and killed his wife at their home shortly after midnight, April 28, and also shot himself. He was thought to be fatally wounded, but later recovered. The motive for the crime was jealousy.

Officers of Wisconsin Foresters.

La Crosse, Wis., June 9.—The Wisconsin high court, Independent Order of Foresters, elected the following officers: High chief ranger, Dr. G. A. Hildreth, Fond du Lac; vice chief, Zeno M. Host, Milwaukee; secretary, J. C. Proctor, Madison; treasurer, A. J. Nelson, Racine; physician, Dr. C. W. Rodecker, Wauwecow; counselor, W. W. Gilman, Boscobel.

Prince Leopold Dead.

Berlin, June 9.—Prince Leopold of Hohenzollern died here during the day. The prince, who was a cousin of Emperor William, had been visiting his son, Prince William, during the festivities attending the wedding of the crown prince and the Duchess Cecilia.

THE THRONE OF NORWAY.
Said to Have Been Offered to Member of Danish Royal Family.
Copenhagen, June 9.—It is reported that the Norwegian government in view of King Oscar's apparently definite refusal to consider the offer of the throne to place a prince of the house of Bernadotte on the throne, has privately approached the Danish royal family to ascertain if an offer of the throne would be received by a member of it, preferably Prince Frederick, son of Crown Prince Frederick. The general opinion expressed here is that such an offer would be refused.

According to reports from Stockholm, King Oscar may be induced to reverse his decisions and to favorably regard the offer of the throne for a member of his house.

Leading Swedish politicians are much divided over the question, which, it is understood, will not be definitely decided prior to the extraordinary session of the riksdag.

Authoritative information received from Norwegian circles represents the majority of Norwegians as opposed to giving the throne to a prince of the house of Bernadotte. It is stated that if King Oscar should definitely refuse the throne for a member of his family and that if the Danish royal family should likewise refuse to place one of its princes on it, Norway will become a republic, and that this is favored by the mass of the population.

THE ONLY THING TO DO.

Dr. Nansen Says What Happened in Norway Could Not Be Avoided.

London, June 9.—Dr. Fridtjof Nansen, the Arctic explorer, in a telegram to a London paper said that what happened in Norway could be no longer avoided.

"The crown," he says, "was compelled to veto the consular bill or else it would have lost Sweden. We understand this without bitterness, as there is now no way back. Our hope is that the Swedish people will understand that this was the best solution of the difficult crisis, for the continuation of the quarrel between the two countries would be a perpetual danger and weakness."

DRAWING TO A CLOSE.

Trial of William G. Crawford Nearly Ended.

Washington, June 9.—The trial of William G. Crawford, charged with conspiracy with August W. Machen and George E. Lorenz to defraud the government in connection with contracts to supply the postoffice department with letter carriers' satchels, is rapidly drawing to a close. The direct examination of Crawford was brought to a close during the day and the entire afternoon session of the court was devoted to the cross examination. The trial was continued until Monday.

Many of the facts concerning interviews between Crawford and officials of the postoffice department had been brought out by witnesses for the government. This differed little from the testimony given by Crawford, except for the interpretation placed on them by the opposing counsel. The testimony of the defendant in his own behalf was confined to an explanation of his own conduct after he learned that he had been made the subject of suspicion by postoffice inspectors.

UNION MEN ARRESTED.

They Refuse to Tell Who Shot One of Their Members.

Philadelphia, June 9.—Sixty members of the local branch of the National Structural Iron Workers and Bridge Builders' union are locked up in a station house here pending the solving of a mystery surrounding the probably fatal shooting of one of the members of the organization. The victim is Edward Joyce of Washington, D. C. He is in a dangerous condition, but refuses to tell the name of the man who shot him.

TRAIN MAKES FAST TIME.

Travels From Chicago to Pittsburg in Four Hundred and Forty Minutes.

Pittsburg, June 9.—The distance between Chicago and Pittsburg over the Pennsylvania lines, 468 miles, was covered in the phenomenal time of 440 minutes without much effort during the day. The special train which made the run was practically a counterpart in size and weight of "the Pennsylvania Special," the new eighteen-hour train between Chicago and New York, to be established June 11.

TWELVE PERSONS INJURED.

Fast Passenger Train Wrecked by Spreading Rails.

Flint, Mich., June 9.—Fast through train No. 3, on the Grand Trunk railroad, bound for Chicago from the East, was wrecked in the afternoon about ten miles east of here near Davison by spreading rails. No one was killed. Mrs. Cora Waltrous of Roxbury, Mass., was, it is thought, fatally injured and eleven others were less seriously hurt. It is said three coaches were dented.

WITH TIRELESS ENERGY.
King Alfonso of Spain Puts in Another Busy Day in London.
London, June 9.—King Alfonso of Spain, who displays the tireless energy of youth, has passed another busy day of sightseeing, crowned with a gala performance of opera. In his honor Convent Garden was transformed into a bower of red and yellow roses, the stage being thus completely framed in the Spanish colors. The whole auditorium was looped and festooned with roses, orchids, spring flowers and brilliant lights. When the royal party arrived at 9 o'clock, King Alfonso leading Queen Alexandra, and King Edward leading Princess Louise of Fife, the beautifully decorated royal box was crowded with members of the royal family, while in other boxes were Ambassadors Reid, ministers, statesmen and naval and military officers. All stood while the Spanish and English anthems were played. Then came selections by leading artists.

Beware of Ointments for Catarrh that Contain Mercury.

Mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free. Sold by all Druggists. Price, 75c. per bottle. Take Hall's Family Pills for constipation.
